- 6.BORU20210205010:** Russian producer of polymeric implants with high biocompatibility and biostability seeks distributors
- 7.BORU20210325002:** The Russian producer of dietary supplements, medical products, oral hygiene products and baby food products seeks distributors
- 8.BORU20210205023:** Russian producer of paper and cardboard from recycled materials with antibacterial coating is looking for distributors
- 9. BORU20210205017:** Russian developer of a set of technological solutions in the field of online retail is looking for licensees
- 10.TORU20210428001:** A Russian company with technology for analysing the human genome seeks partners to conclude research cooperation agreement
- 12.BORU20210330001:** A Russian e-commerce provider seeks licensees for passenger facing technology solutions
- 13. BORU20210324005:** The Russian developer and producer of medical simulation equipment seeks distributors on the European market
- 14BORU20210329007:** A Russian developer of high-tech domestic production of pharmaceutical substances, chemical reagents and other products of fine organic synthesis is looking for distributors
- 15.BORU20210408005:** The Russian developer, manufacturer and distributor of test systems for laboratory diagnostics by enzyme immunoassay, immunochemiluminescence analysis and molecular genetic studies by polymerase chain reaction seeks distributors
- 16.TORU20210421001:** The Russian company offering the solution of creating new high-performance membranes designed for the separation of water media, water treatment and distillation seeks partners for technical cooperation agreement

- 17.BORU20210408002:** The Russian producer and processor of peat seeks distributors
- 18.BORU20210224003:** The Russian developer of robots for educational activities seeks distributors abroad
- 19.BRRU20210422001:** The Russian company offers representation/distribution services for manufacturers of industrial equipment in the Russian market
- 20. BORU20210408006:** Russian developer of traffic management projects, integrated traffic management schemes, new route networks in cities and regions, as well as software for automating these processes seeks licensees
- 21.BORU20210329004:** A Russian developer and manufacturer of fibre-optic monitoring systems seeks distributors
- 22.BORU20210329001:**The Russian company producing liquid stable reagents for the diagnosis of basic analyses in human biological fluids seeks distributors
- 23 BORU20210326001:** The Russian developer of methods and means of protection of group electric networks from arc breakdowns and fire-dangerous sparking seeks distributors
- 24. BORU20210408003:** The Russian manufacturer and producer of robotic manipulators based on artificial intelligence seeks distributors
- 25.BORU20210326003:** The Russian developer of software package for creating and reproducing training simulations in virtual reality seeks licenses
- 26.BORU20210324003:** The Russian manufacturer of dry and thick extracts seeks distributors
- 27. BORU20210324006:** The Russian developer of innovative wires and lightning cables for overhead lines seeks distributors abroad
- 28.BORU20210325001:** The Russian producer of port systems of increased biocompatibility for the treatment of cancer seeks distributors
- 29. BORU20210329002:** The Russian developer of system for automatic sorting of solid waste using artificial intelligence seeks distributors
- 30.BORU20210224004:** Russian producer of X-ray detectors, systems for flaw detection and tomography seeks distributors
- 31.BORU20210224009:** Russian manufacturer of devices and instruments for dental practices seeks distributors

32.BORU20201211001: Russian developer and provider of AI-powered messaging contact center seeks licensees

33.BORU20210326004: The Russian researcher and producer, performing applied scientific research in the field of radio electronics, information technology and data mining, seeks partners under distribution services agreements.

34.BORU20210329003: The Russian manufacturer of implantable medical devices for X-ray endovascular surgery seeks distributors

35.TORU20210329001: The Russian company specialized in neural networks seeks for international partners for technological cooperation

36.BORU20210330002: A Russian producer of histological equipment and consumables seeks distributors

37.BORU20210329005: The Russian developer and researcher of own innovative medical products, endoprotheses and implants for humans seeks for investors
